- Site Environmental Management Plans & Provision of Expert Advice.

What makes Atma Environmental your best choice as an environmental consultant?

Simply put, we combine decades of experience and a commitment to Service Excellence into a consulting service that is second to none in our industry. We have successfully completed over 675 projects and our Director and Principal Environmental Consultant, Glenn Berry, has over 25 years direct experience in site remediation and contaminated land.

We understand that our consulting services are a key and lead element in your project's critical pathway to success, so we do more than just make promises, we live up to them!

Here are some of the benefits you get when choosing Atma Environmental:

Speak directly with the Director and get reliable, straight advice or cost estimates. Where else will you get guaranteed access to a company Director with 25 years experience in site remediation and contaminated land? Talking to Glenn Berry, you can be sure your best interests are being served.

Get all the expertise you would expect from a large company, without multiple layers of management to frustrate you.

Get all the essential information up front. We'll confirm the scope of work, the agreed amount, the agreed deadline, and advise you of the Project Manager right up front. We'll also provide you with progress updates and timely communications through to completion and will be fully available to you over the course of the project to clarify any matter of concern.

Whatever your environmental consulting needs, you can be sure that Atma Environmental will provide you with the expertise and reports necessary to establish and control your liability and to get the job done.

Call Atma Environmental Now on (613) 9429 6955 for a confidential free assessment of your environmental consulting needs.
