Attn: Glen Berry
Director

Dear Glen,

Re: Site Assessment Report for Child Care Centre

I am glad to furnish you with my written reference for your professional service and report required by the Department of Human Services for establishing a new child care centre in Doncaster.

I am certainly impressed with the efficiency and quality of professional service rendered starting from the early period of quotation to the final delivery of completed report. The entire process took me less than two weeks from start to finish; whereas other companies I contacted could not even give me a rough quotation for the project. I was very delighted and satisfied with the service and would recommend to other businesses that would need similar professional services.

Feel free to contact me for further information.

Best regards,

Phileas Lee
Director
