Attn: Mr. Glenn Berry, Director

Glenn,

**Re.: Corporate Reference**

Thank you for attending our offices today to personally take us through the results of your site suitability assessment report for our Point Cook project.

I'd just like to acknowledge the remarkable contrast between your report and reports we've previously had done by other environmental consultants.

As a corporate Property Advisor I need to be fully across multiple site development issues and I found your report refreshingly concise, readily understandable and free of confusing technical jargon.

In addition, the whole project was completed very professionally and to the schedule you set out and advised us of.

I look forward to reading the paper you said you will prepare on comparative ESA approaches that will help us specify technical requirements for future programs.

Regards,
